

Village Street Trees:

Common Hackberry	(<i>Celtis occidentalis</i>)
Ginkgo	(<i>Ginkgo biloba</i>) (<u>male trees only</u> , female trees have large smelly seeds)
Honeylocust, Thornless	(<i>Gleditsia triacanthos form inermis</i>) (eg. “Shademaster”)
Ironwood	(<i>Ostrya virginiana</i>)
Kentucky Coffee Tree	(<i>Gymnocladus dioicus</i>)
Littleleaf Linden	(<i>Tilia cordata</i>)
Sour Gum or Black Gum	(<i>Nyssa sylvatica</i>)

Maple and Oak species are no longer options for Village Street Trees.

Note: if you are planting or replacing a street tree there is also a **minimum size requirement of 2.0 caliper**. Seedless cultivars are encouraged whenever possible.
